

Vice President of Operations

Company Summary:

Onyx+East is a homebuilder that delivers well-crafted and designed homes to clients. We focus on building in walkable, lasting locations ensuring each property provides comfort, livability, convenience, viability, and practicality. We treat every home as a piece of art. We are committed to serving our clients through offering a quality project, maintaining transparent communication, and encouraging a relationship, rather than a mere partnership. We are thinkers. We are visionaries. We are envelope pushers. We work towards one goal: to ensure our residents live with a sense of comfort, community and sustainability.

Job Summary:

The Vice President of Operations primary role is to lead each key operational function and oversee general operations within the division. The role will work with leadership to define strategy, drive execution, and deliver business results. The Vice President of Operations will work with division and senior leadership to build and grow the division's operations, people, and culture. The role will partner and collaborate with all functional areas on key components of projects, including project and product development, project execution, driving change, and other critical items for Onyx+East business.
